

Brookview Montessori Sunscreen & Insect Repellent Permission

SUNSCREEN	Initial each section
All children need to arrive at Brookview Montessori Child Development Centre and Afterschool care with sunscreen already applied each day.	
Parents are expected to supply a bottle of sunscreen for each child, labelled with your child's name that remains at the center. Siblings are only able to share sunscreen if they are in the same room.	
Lotion sunscreens will be applied indoors, when on site. For the health and safety of the children and staff all spray sunscreens will be applied outdoors, for this reason we recommend lotion sunscreen to allow the appropriate time for the sunscreen to be effective.	
Kindergarten to Grade 3 children will be learning to apply sunscreen independently and properly. Children will have a buddy to help them with sunscreen application. Out of School Care and Kindergarten children will apply sunscreen between 12 - 1 pm. We will have a staff monitor the Kinder - Grade 3 and remind them to cover all exposed skin.	
Grade 4 - 6 children will be applying sunscreen independently and may ask a buddy or teacher for assistance if required.	
Jr Kinder, Preschool, Transition and Toddler children will have sunscreen applied by our staff between 12 - 1 pm on fieldtrips or upon waking up from rest time at the center	
For the health and safety of your child, should your child not have sunscreen to apply in the afternoon for whatever reason, we will apply the daycare supplementary sunscreen for that day and notify you that your child no longer has sunscreen at the center. Should your child not have sunscreen to apply in the afternoon for any consecutive days for whatever reason, our staff will contact you to pick up your child.	
For the health and safety of your child we recommend all children have a hat during the summer months. Hats should cover their ears. Younger children benefit from hats with a chin strap. Please ensure all hats are labelled with your child's name.	
Brookview Montessori is not responsible for any lost hats, sunscreen or other belongings.	
INSECT REPELLENT	
You may send a bottle of insect repellent labelled with your child's name to remain at the center.	
For the health and safety of all the children and staff insect repellent will be applied outdoors.	
Out of School Care children will apply their own insect repellent.	
Kinder, Jr Kinder, Transition and Toddler children will have insect repellent applied by our staff.	
We will apply insect repellent in the morning as soon as we go outside. For children over 2 years of age we will reapply when going outside in the afternoon.	
Environmental Public Health recommends that 10% DEET or less should be used for children ages 2 - 12 years of age. Environmental Public Health recommends that for children 6m - 2 years one application per day of DEET and for children 2 - 12 years no more than 3 applications of DEET per day.	
PERMISSION	
CHILD:	
SUNSCREEN BRAND PROVIDED	SPF
INSECT REPELLENT BRAND PROVIDED	DEET%
By signing, I have read and hereby agree to the terms above outlining our Sunscreen and Insect Repellent procedures. I will not hold Brookview Montessori Child Development Centre and Afterschool Care responsible for risks associated with the outdoor activities, sunscreen and insects.
